

- **Banana Jack (0.162" to 0.164" ± 0.002" ID) USB Adapter**
Converts a USB jack into a groundable point* for wrist straps and other grounding hardware with banana plugs.
- **Made in The United States of America**
This item is made and stocked in Chino, CA

*Standard USB jacks are wired to ground through the device to which they are connected. Bonding an operator or other grounding hardware to the USB port of a device will bring the device and operator to the same electrical potential (equipotential).
